PETITIONING THE COURT

[X] To issue a summons

The probation officer believes that the offender has violated the following condition(s) of supervision:

Violation Number Nature of Noncompliance

- | | |
|---|--|
| 1 | The offender has violated the special supervision condition which states 'You shall reside for a period of 45 days in a community corrections center, halfway house or similar residential facility and shall observe all the rules of that facility. You shall not be eligible for weekend privileges. You shall pay subsistence as required by the program.' |

As part of his sentence, the offender was ordered to spend 45 days in confinement in a residential re-entry center (RCC). He was ordered to self-surrender to the designated RRC (Toler House) by March 4, 2011. Three days

later on March 7, 2011, he was released due to testing positive for Tuberculosis (TB), and advised to re-enter the facility as soon as he received medical clearance.

Upon his arrival back to Toler on March 17, 2011, the offender was administered a breathalyzer, which resulted in a positive reading of .033%. He was held in the operations area for further evaluation, and administered a second breathalyzer 15 minutes later; it resulted in a positive reading of .027%. An incident report was given to the offender for Making, Possessing or Using Intoxicants.

On March 23, 2011, Toler staff conducted a random search on all residents returning from lunch. During the search, the offender was ordered to submit to a body search. A metal detector wand detected the presence of metal from his groin area. The offender was then ordered to submit to an additional pat search and an item was detected on his person. He was ordered to hand over what was in his groin area and the offender removed a Samsung cellular telephone; he later produced a Samsung phone charger. The offender received a second incident report for possession of an unauthorized item.

On March 24, 2011, the offender was discharged as a program failure.

I declare under penalty of perjury that the foregoing is true and correct.
